EXPERIENCE

Front-end Developer
Zengenti
Sep 2020 - July 2022

Responsibilities:
- Work with UX/UI designers to build accessible, WCAG compliant components with ReactJS following Figma designs, using Styled components or SASS for styling.
- Document components on Storybook, & use typescript for better development experience.
- Set up the Gitlab repository to connect with in house Headless CMS - Contensis, using Redux for state management.
- Run cross browser tests with BrowserStack

Developer
Weaveability Ltd
Aug 2019 - Aug 2020

- Developed bespoke applications and web portals for eCommerce sites using UI5 or ReactJS. Worked in an Agile workflow, made easy with Jira.
- Used GitLab as DevOps lifecycle, Gulp/Grunt as our build tools and Jest for testing. Maintained web apps for large companies such as Smyths Toys, Missguided & Evergreen.
